Welcome to Salford Museums

If you’re looking to discover a whole host of events, exhibitions and activities exploring Salford’s heritage … this is the right guide for you!

We have two of the region’s most culturally and historically significant venues just waiting to welcome you inside.

Salford Museum & Art Gallery

Opened as the UK’s first unconditionally free public lending library in January 1850. Today the building is home to Lark Hill Place, our famous Victorian street within the museum, as well as presenting an exciting programme of permanent displays and changing contemporary exhibitions together with a range of events and activities guaranteed to inspire.

Ordsall Hall & Gardens

Our Grade 1 listed Tudor manor house was first recorded in 1177. Since then, it has been home to Medieval and Tudor nobility, butchers, farmers, an Earl, an artist, priests, mill workers, cows and several ghosts! It now boasts immersive room settings, changing exhibitions, a café, beautiful gardens and is home to one of the oldest beds in Britain, and the aforementioned ghosts!

Exhibitions

Gifts, Grants and Games: Celebrating 60 years of the Friends
On until 13 November

The Friends of Salford Museums Association are celebrating their 60th birthday by sharing some of the fascinating objects they have helped to secure for the museum collections in this exhibition. From pencil sketches to oil paintings, sculptures to games, many of the items have not been on public display for a number of years. In addition, the Friends support a large number of projects and funding grants for both Salford Museum and Art Gallery and Ordsall Hall.

See this eclectic mix of objects, find out about the Friends and play on our giant board game!

Cotton and Steel: The Industrial Paintings of Kevin Haynes and David Watson
9 July to 9 October
North Gallery

The cotton industry of Manchester and Oldham and the steel industry of Teesside and Middlesbrough are brought together in this joint exhibition by post war artists Kevin Haynes and David Watson.

Cotton and steel are two distinctly contrasting materials presented by two distinctly different artists, both from working backgrounds in industry, later mixing their palettes to reflect these experiences.

Kevin’s instantly recognisable colourful naïve style blends fondness of his childhood and career memories of northern cotton towns, through a methodical and precise mind of an engineer. David’s raw and often brutal approach resonates a personal relationship with the industrial past against the present reality. When combined they weave an industrial narrative connecting the regions through the industries once defined as Cotton and Steel.

Peel Back Time
16 July to 25 September
Bluestairs Community Gallery

One of the first parks created through public subscription, Peel Park opened in 1846. Just four years later the Royal Museum and Public Library opened in Lark Hill Mansion. ‘Peel Back Time’ tells the story of the people and the park over the 170 years of its life. From local working people to royalty the park has welcomed all visitors. Now the plan is to restore the park to its 1890 layout and draw people back to this hidden gem. Supported by the Heritage Lottery Fund and Big Lottery Fund a programme of events and activities will invite people to get to know and appreciate this special place.

Ups and Downs
1 October to 5 March 2017
Bluestairs Community Gallery

Maria Carroll has collaborated with her brother Matt to create works for this exhibition. Maria has always been an inspiration to her family, manifested in her innate visual and artistic approach to the world around her. The use of vibrant, strong colours and striking images to visualise her world will inspire and uplift. Maria, who has Down Syndrome, is part of a large family born and brought up in Little Hulton. Her artistic collaboration with Matt, better known for his work with Central Station Design, is used as a therapeutic way to positively face hurdles in their lives.
Soul Journey
15 October to 7 February 2017
North Gallery

The Soul Journey Art Project is a unique collaboration between arts company verd de gris, writer Paula Sutherland and international photographer and film-maker Geoff Brokate.

This exhibition will challenge how we perceive and respond to dementia as individuals and as a society.

The exhibition includes an installation, original writing, a series of still photographs and a film that weaves together spoken word, moving images and an original score to capture some of the beauty and dignity of the people taking part. It celebrates the extraordinary richness of the landscape that means so much to them. Group participants also present their own unique interpretation of what it means to live with dementia.

Very often there is a perception that dementia, being an ‘incurable’ or ‘difficult’ condition, is filled only with anxiety and confusion, devoid of joy. Having worked for over 10 years with people living with dementia, verd de gris have experienced quite the opposite in their creative dementia sessions, giving people time and space where the present becomes new and fulfilling.

Being There
12 November to 30 April 2017
Langworthy Gallery

An immediacy of time and place is vividly captured in painting, drawing, and collage in this wide ranging exhibition by Colin Binns.

The artwork reveals his fascination with the colour, form, and sense of movement found in explorations of our towns and cities. Their character is powerfully conveyed through mixed media drawings, whilst urban energy and atmosphere come to life through his strong and expressive semi abstract paintings.

A theme of urban renewal emerges in much of the exhibition, particularly in the artwork responding to Manchester’s regeneration since the dramatic 1996 damage to the city centre.

Salford Museum & Art Gallery

**World War One Talks**

**Remembering 1st July 1916; Thiepval day in Salford**
Friday 1 July / 2 - 3pm
The talk will give some background to the conflict, including the recruitment of the Salford Pals and where they came from. Paul Hassall discusses the battle for Thiepval on the 1st July 1916 and the way information of the losses arrived in Salford. Many men were killed, wounded or captured, but many were missing. We will look at individual stories of the battle and the men involved. It was soon decided to commemorate the losses by the erection of memorials. A special service was held each year at Sacred Trinity Church, Salford and a Thiepval memorial was unveiled.

This talk forms part of a wider programme of events on that day, please visit www.salford.gov.uk for details.

Free for Somme commemoration day
No booking required for all talks.

**Salford Soldiers, The Battle of the Somme and Douglas Haig**
Monday 24 October / 2 - 3pm

**David Jones – World War One poet**
Monday 14 November / 2 - 3pm
David Jones (1895-1974) was a poet, artist and mystic who also fought in World War One at Ypres and the Somme. Not many people have heard of him despite the fact that the famous poet T. S. Eliot considered his great war poem In Parenthesis “a work of genius”. This talk will look at Jones’ extraordinary life and consider examples of his art and poetry.

Only £2

Salford’s Early Past Revealed
11 September 2016 to 11 June 2017
Egerton Gallery
Many archaeological investigations have been carried out across Salford, but particularly in the central part of the city. Previously unknown prehistoric sites have been located, Roman roads rediscovered and some of the city’s finest timber buildings recorded, greatly increasing our understanding of the way Salford’s communities grew. This exhibition takes you on a journey from the first Salfordians in the Iron Age right up to industrial Salford.

Once upon a time…
